Snake Creek Mines.

Snake creek canyon has been pro-
spected for precious metals almost
from the earliest days of mining in
this state and long before the discov-
ery of the great output of the build-
ing of Park City. Some very rich ore
has been taken out along the north
slope of the canyon in many places,
the Bananza Flat has passed through
several mining expeditions on ac-
count of the discoveries that have
been made there and claims on that
flat are considered to be valuable
holdings. All miners agree that there
must be large bodies of valuable ore in
that mountain but no one has yet
ventured to pay the expenses of ex-
ploring paying values have as yet
been discovered, on the Wasatch
county slope, unless it be on the Ba-
nanza Flat.

The most of the territory described
above is located and much of it is
patented and the prospecting begin-
ning at the head of the canyon are as fol-
lows: The Moon and Lake Mining
company has about to patented claims
extending from the Park City slope
along the ridge at the head of Snake
Creek and over into American Fork
canyon and covering a large tract of
ground in the Big Cottonwood canyon.
This company has recently purchased
the steam out property in the head of
Snake Creek consisting of about 30

MIDWAY.

SPECIAL CORRESPONDENCE.

The new leather shop which was
started by E. C. Cavanaugh last week
seems to be doing a good business.
We are glad to see this for a first
class barber has been needed here for
some time.

We understand that D. S. Mardock
has opened a meat market in a build-
ing adjoining his store. We wish
him success in his venture.

On account of the scarcity of coal
some of our citizens have been haul-
ing from Park City.

Jos. W. Francum, formerly bishop
of the first ward of Midway but now
a resident of Deweyville, Utah, is in
town visiting friends and looking
after some property which he has
here.

Five or six families have been
placed under quarantine for small
pox this week.

Ed Culmer of this place is home
from Milford, Utah, where he has
been engaged in the mining business
as a lessee. He expects to return
after the holidays.
